

生物醫學暨環境生物學系110學年度第1學期碩博士班專題討論(Seminar)題目

年級	學生姓名	篇名	第一作者	期刊名	刊登年代
碩一	葉柏廷	Chemical detection triggers honey bee defense against a destructive parasitic threat.	Fanny Mondet	Nat. Chem. Biol.	2021
碩一	楊宗穎	Betel nut arecoline induces different phases of growth arrest between normal and cancerous prostate cells through the reactive oxygen species pathway.	Li-Jane Shih	Int. J. Mol. Sci.	2020
碩一	林鈺家	Systematics study of Asian <i>Bolbitis</i> (Dryopteridaceae)	進度報告		
碩一	蕭俊鴻	Developing the potential drugs to extend reduced neurite length	進度報告		
碩一	鄭婷云	The survival analysis and the sexual dimorphism of <i>Nephila pilipes</i>	進度報告		
碩二	萬郁岑	A platform for Ultra-Conserved Element (UCE) probe design	進度報告		
碩二	李名媛	Transcriptome analysis of venom glands from three <i>Macrothele</i> species (Aranae: Hexathelidae) of Taowan	進度報告		
碩二	張慕申	Development of protease-activatable Pro-chimeric antigen receptor (CAR)-T cell for improving the disease site selectivity, anticancer effect and reducing side effect of immune cell therapy	進度報告		
博班	彭聖堯	Synergistic antiproliferation of natural products combined with UVC in oral cancer cells	進度報告		
博班	鮑永定	Systemic investigation of PRKCB gene in oral squamous cell carcinoma	進度報告		
博班	李文翰	To develop a tumor site-specific pro-anti-carbohydrate antibody against Gastro-Intestinal (GI) cancer	進度報告		
博班	Ilham Kurnia	Global shifts in mammalian population trends reveal key predictors of virus spillover risk	進度報告
